IDAHO POLITICS FULL OF TROUBLE

Republicans Sundered Into Two Factions.

SUGAR BOUNTY QUESTION

DUBOIS. HOWEVER, REMAINS

The "Federal crowd" does not include some so far as to suggest to him that the governor, nor the editor or the he take care of his law business at proprietor of the Statesman, nor those Caldwell, advancing as an argument who have always been Republicans for that he will need it the sake of party principles, but it floes include the gentleman from Bear Lake county who is now the attorney general of the state, and in speaking of him there is a good story out that has escaped the comment of the entire press of the state, except that of the press of the state, except that of the extreme northwest.

Auditor and Politician.

The story goes like this: Theodore Turner in his official capacity as state Turner in his official capacity as state puditor asked the attorney general, whose name is Bagley, for an opinion in the constitutionality of the payment of the sugar bounties passed by the Seventh legislature. The query was innocently propounded and was beyond doubt in line with the duties of the auditor. The Idaho Falls sugar plant had been put into successful. plant had been put into successful pperation and on its initial run had warned a bounty of \$1,500 under the law passed by the last legislature. Mr. Turner simply asked the attorney gen-eral for an opinion as to the constieral for an opinion as to the consti-tutionality of the law, but at the time which he snatched victory from appar-Mr. Bagley was on a junketing tour ent defeat in the Democratic state conthrough Bingham and Fremont counties (it is irreverently said, in the interest of the brethren and to see that they got all that was coming to them, including sugar bounties), and in a conclusion that what he wants he will they got all that was coming to them, including sugar bounties), and in a speech, a political speech, he derided the state auditor for raising the question as to the legality of paying the bounties and made a speech in support of his contention. What the derent people of the state are asking is: When the legality of the matter of paying the sugar bounties comes before Mr. Bagley as attorney general, will he decide it as a jurist or as a politician and an advocate? It has been suggested that Mr. Bagley is "resuggested that Mr. Bagley is "religiously" and personally interested in having these bounties paid. He has publicly derided the auditor for asking the question as to their legality, and now the people want to see what he does as attorney general. What will Bagley do? Will he assent to the payment of the sugar bounties because he is "religiously" in favor of them? or will he give an opinion as a jurist fit to fill the high office the people of the state have honored him with? It might be said that Turner, the auditor, doesn't give a continental which

way the gentleman from Bear Lake decides. He simply wants to be ad-vised as to his duties. But there are

many assertions that, in spite of re-

bounties and the strong question in this state as to the constitutionality of the matter, Mr. Bagley will order

yment of the bounties, pecause

It should be mentioned here that W. E. Borah, who so unsuccessfully contended with Heyburn for the senatorship, does not belong to the "Federal crowd." At present Mr. Borah is unclassified. The confidence game he classified. The confidence game he sprung on the last Republican conven-tion when he incorporated the Iowa free trade idea in the Idaho platform has resulted in a sort of ostracism for Mr. Borah. He is liked and admired by the Democrats, and it would not be the

THEY ACTUALLY DO THE WORK Food Eaten Is Worthless Unless Di-

gested-Some Stomachs Must Have Help.

Food taken into the Stomach which, from the nature of the food or the condition of the stomach, is not digested, is worse than no food at all. This is a true statement as far as it goes and a great many dyspeptics go only this far with their reasoning. They argue with themselves that because their stomachs do not do the work given them, they must be given less work; in other words they must be starved. It would be just as sensible for a business man who is unable to do all his own work to cut down his business to his own capacity as it is for a man to starve himself to relieve his stomach. The sensible business man employs help and goes forward with his business. Likewise the sensible dyspeptic will employ help for his stomach and give his body proper nally, acting directly upon the blood and mucous surfaces of the system.

Stuart's Dyspepsia Tablets actually stuart's Dyspepsia Tablets actually do the work assigned to them. They relieve weak and overburdened stomachs of a great portion of digestive action. Their component parts are identical with those of the digestive fluids and secretions of the stomach and they simply take up the cripd and corrections. and secretions of the stomach and they simply take up the grind and carry on the work just the same as a good, strong, healthy stomach would do it.

On this account Stuart's Dyspepsia Tablets are perfectly natural in their action and effects. They do not cause any unnatural or violent disturbance in the stomach or bowels. They themselves digest the food and supply the system with all the nourishment contained in what is eaten and carry out Nature's plans for the sustenance and maintenplans for the sustenance and mainten-ance of the body. How much more sensible is this meth-

How much more sensible is this method than that employed by many sufferers from weak stomachs. By this means the body and brain get all the good, nutritions food they need and the man is properly nourished and equipped to carry on his work and perform his duties. He could not possibly be in proper working condition by starving himself or employing some new fangled, insufficient food that does not contain enough nutriment for a year-old baby. A strong man doing strong work must be properly fed and this applies to the brain as well as the body.

Stuart's Dyspepsia Tablets, by relieving the stomach of its work, enable it

Pocatello, Ida., Jan. 30.—The particular brand of political dope that is being handed the Republicans of Idaho by what is locally known as the "Federal crowd," is seeming to have a nauseting effect on the rank and file of the party in the state. Justification of Effort to Protect Petrified Forest Wonders.

REFORMING CIVIL SERVICE

PAVING WAY TO PENSION IN-DIAN WAR VETS.

(Special to The Heraldi) Washington, Jan. 38,-An interesting report has been submitted by the house committee on public lands, endorsing the bill introduced by Chairman Lacey proposing to create the Petrified Forest National park in Ari retrified Forest National park in Arizona. The report says that the lands proposed to be included in this park contain some of the most remarkable of the natural curiosities of America. The region has not been extensively visited by the American public. When properly cared for and supplied with suitable accommodations for visitors, it will take its place with the Yellowstone, Yosemite and Mount Ranier na-tional parks. It is not far distant from the Grand Canyon of the Colo-rado, which is one of the wonders of

the world.

The petrified forest consists of heaviful confer trees. great number of beautiful conifer trees which lie scattered about in great pro-fusion. Thre is evidence to show that fusion. Thre is evidence to show that the trees grew beside some inland sa, and that after falling they became water-logged, and that the cell structure of the wood was entirely replaced by silica from sand in the waters surrounding the great inland sea. Over the entire area the trees lie scattered in all conceivable positions, and in fragments of all sizes, and broken pieces sometimes resembling a pile of cart wheels.

A remarkable feature of the park is a natural bridge formed by a tree of

Recognition of Chaplains. An effort is being made in the present congress to amend the law relating to the status of army chaplains. Under the existing law, the chaplains of the army, fifty-seven in number, have

the rank and pay of captain, and no the rank and pay of captain, and no advancement in grade or emolument is possible no matter how long or distinguished may be their service, nor how strong their claim of special recognition may be presented in the official recommendations of their commanding generals. They constitute the only class of commissioned officers to whom no recognition can be given for heroic conduct or unusual devotion to heroic conduct or unusual devotion to duty. The aim of the bill now before congress is to correct this manifestly lains by awarding an advance from the grade of captain to that of ma-jor in cases of conspicuous efficiency and devotion unfair discrimination against the chap-

The bill bases promotion absolutely upon the established records of the upon the established records of the chaplains in the military service, which record is made upon the recommendation for unusual merit, by the regimental commander. The bill provides that the total number of chaplains to be promoted shall not at any time exceed fifteen, and of the fifteen to be promoted, but fourteen can be brevetted at the present time. Their service ranges from ten to nearly thirty years, and averages about eighteen. The bill has the approval of the secretary of war and the chief of staff. retary of war and the chief of staff, and of more than thirty general officers and colonels to whom it has been fleers and colonels to whom it has been submitted, and has been reported upon favorably by the senate committee on military affairs. The prospects of the bill becoming a law are very good.

Following the recent rejection of the civil service bill Representative Grosvenor has introduced a bill modifying the law so that the terms of all persons whose appointments shall be made

The proper appointing officers may remove transfer, reduce or promote any appointees as a proper regard for the good of the public service may require, but no removal, reduction, promotion or transfer to be made for political or religious principles. religious principles.

Service and Pensions.

Senator Proctor has introduced a bill which has the sanction of the war department, which authorizes the secre-tary of war to employ retired officers of the army for service in connection with the organized militia in the several states and territories, upon the request of the governor, as military attaches, and for duty upon courtsmartial, courts of inquiry and boards, and upon staff duties. Retired officers thus employed are to receive the full pay and allowances of their respective grades. Senator Proctor's bill also proposes to repeal that part of the prior law which limits the number to twenty of retired officers for detail for service with the organized militia Should the bill become a law it wil enable all the states to obtain regular army officers for service as instructors of state militia. Heretofore but twenty states have been enabled to obtain

In order to expedite the payment of pensions to veterans of the Indian wars the house has passed a resolution providing that the military rolls and records of the Indian wars, and any other wars prior to the civil war, now preserved in the interior or other departments, shall be transferred to departments, shall be transferred to the war department, and be properly indexed and arranged for use by the record and pension office. These mili-tary rolls have been stored in the files tary rolls have been stored in the files of the bureau of pensions of the interior department, and have not been indexed or prepared for publication or use. The record and pension office of the war department is equipped for indexing and publishing the rolls, and by transferring them to this office the work of getting them into proper shape will be greatly expedited. Included in the total number of 468 rolls are 39 of the Utah Indian wars of 1846 to 1855; 46 of the Bouge River wars, 1851 to 46 of the Rouge River wars, 1851 to 1853; 35 of the Cayuse wars, 1847 to 1848; 14 of the Black Hawk wars, 1832
